

Take & Make: School Bus Craft (4-6 yr. old's)

Cut out bus shape from cardstock. The holes for the brad for the wheels have already been punched out for you.

Cut out the black wheels. Line the holes on the bus up to the holes of the black wheels and put brads through the holes.

The wheels should be able to go round and round. Cut out the black strips and glue to the side of the bus.

Cut out the blue door/windows and glue to the side of the bus. Then color & cut out the kids you would like to place in the windows. Hint: Use double-sided sticky tape to be able to change them out.
